The Madison

Welcome home.

Welcome to this beautifully crafted new construction split-bedroom ranch, offering 3,691 square feet of thoughtfully designed living space that blends modern style with warm, inviting finishes.

The main level spans 2,280 square feet and showcases an open-concept layout ideal for both everyday living and entertaining. The great room features a cozy gas fireplace and flows seamlessly into the dinette and designer kitchen, where custom cabinetry, quartz countertops, and high-end finishes create a polished yet functional space. A convenient powder room and first-floor laundry add to the home's practicality.

The private primary suite is a true retreat, complete with a spa-inspired bathroom featuring a custom tile walk-in shower, heated tile floors, a double vanity, and a beautifully designed walk-in closet. On the opposite side of the home, two additional bedrooms each offer their own walk-in closets and are connected by a well-appointed Jack-and-Jill bathroom, providing comfort and privacy for family or guests.

The finished lower level adds an additional 1,411 square feet of living space, including a spacious family room, a custom bar with granite countertops and cabinetry, a fourth bedroom, and a full bathroom—perfect for entertaining or extended stays.

Outdoor living is just as inviting with a covered deck overlooking the landscaped yard. A 3-car attached garage provides ample storage and convenience.

Throughout the home, you'll find exceptional craftsmanship with custom cabinetry, luxury finishes, quartz surfaces, and a modern aesthetic softened by warm white oak accents and mixed metal details. This home perfectly balances style, comfort, and functionality in every space.
